Equation [9] should read as follows:

$$\lambda = \frac{\psi\beta}{1000\xi} \quad (9)$$
$$\psi = \begin{cases} 1 + \Pi_s & d < 1.2 \\ 1 & d \geq 1.2 \end{cases}; \quad \xi = \begin{cases} 0.2d & d < 5.8 \\ 0.42 \ln(d) - 0.01 & d \geq 5.8 \end{cases}$$
